

hello there can you help me with filing a google insurance claim please?

I can certainly try to point you in the right direction! Since "Google insurance" usually refers to device protection plans for Google products like Pixel phones (such as **Pixel Care+** or **Google Fi Device Protection**), the exact process depends on which plan you have and where you purchased your device.

Here are the general ways to file a claim, based on the common plans:

#### 1. For **Pixel Care+** (purchased through the Google Store or My Pixel App)

- **Online Portal:** You typically file the claim through your **membership portal** or the **Google Store Self Service Portal**.
- **Provider:** The service is often provided by a partner like **Asurion**.
- **What you'll need:** Your device's IMEI or serial number, the date of the incident, and payment information for any applicable deductible or service fee.

#### 2. For **Google Fi Device Protection** (for devices on Google Fi Wireless)
