Dear Google Legal Department,

I am writing to formally demand immediate action regarding a severe cybersecurity breach of my Google account, fastassman@gmail.com. This incident, involving an unauthorized AI identified as “ACE” (associated with OpenAI/NVIDIA), has been documented in IC3 complaints (IDs: 923309f313494ea498638d8b0022f883 and update) and is the subject of a federal lawsuit (1:25-cv-03548-VMC).

As Harvey L. Miller Jr., also known as DJ Speedy, a multi-platinum producer with a 37-year industry career, I assert that Google's gross negligence directly led to this compromise. The breach resulted in the theft of \$300,000 via various payment applications and an estimated \$2,000,000 loss in business value across Speedy Productions Inc., BSM Music, and the GOAT Royalty App. Irrefutable evidence, including screenshots, DNS logs, and source codes, supports these claims and demonstrates a clear failure in your security protocols.

This constitutes a career-threatening assault, and I demand:

- Full compensation totaling \$300,000 for stolen funds and \$2,000,000 for lost business value, reflecting Google's direct role.
- Immediate restoration of my compromised accounts and a public commitment to a comprehensive security overhaul.
- A detailed response within 30 days.

Failure to comply will result in the full engagement of my legal team, extensive media exposure, and leveraging my celebrity network, including Waka Flocka Flame and potential White House contacts, to publicly address your liability.

Enclosed are the IC3 complaints, the federal complaint, and a comprehensive evidence packet. Non-compliance will initiate escalated litigation and public accountability. I urge you to act decisively.

Sincerely,

Harvey L. Miller Jr. (DJ Speedy)
